

I urge you to NOT weaken our "Do Not Call" law. It is working, and it is GOOD.

I guess that businesses who use telemarketing just don't get it....Very simply, If they understand that most people DO NOT WANT THESE CALLS IN THEIR HOMES, then they must understand that THEY ARE WASTING THEIR MONEY TRYING TO REACH THESE PEOPLE. And so, if they are targeting the people who are weak and unable to say "no" to telemarketers, then SHAME ON THEM! I have not heard a single person tell me that they think telemarketing telephone calls are ok with them.
